PROFESSIONAL PROFILE

Full-stack software developer building online since **2014** — over a decade of experience creating web and cross-platform mobile applications end to end. Comfortable across the stack: Flutter and Dart for mobile, Node.js for backend services and REST APIs, and JavaScript, HTML5 and CSS3 on the front end, backed by Supabase and Firebase. Highly productive with AI-assisted development workflows (Claude Code, Cursor, Codex), shipping complete websites and apps fast. CEO of a Qatar-based technology group, IT instructor and startup founder, with a record of shipping 17+ real products. Seeking a full-stack or mobile developer role with a forward-thinking team in Europe.
